**NPACE and Berxi Partner to Promote Access
to Best-in-Class Practitioner Education & Insurance**

Nurse Practitioner Associates for Continuing Education (NPACE) is partnering with Berxi™ to provide nurse practitioners and advanced practice providers with access to Berxi's medical malpractice insurance and educational resources, and to NPACE's continuing education programs and conferences.

Berxi provides practitioners with fast and affordable medical malpractice insurance, which offers a range of limits and note-worthy features like defense costs paid in addition to the insurance limits. Quotes are available online in minutes at berxi.com.

Under the terms of the partnership, all current and new Berxi policyholders will save 10 percent on registration fees for NPACE 2020 Conferences. NPACE and Berxi are also collaborating to share their insights on the financial-, legal-, and risk-related issues shaping the healthcare industry in the NPACE Notes weekly newsletter, on social media, and on the NPACE and Berxi websites.

"As part of our commitment to supporting nurse practitioners, we are pleased to partner with Berxi, part of Berkshire Hathaway Specialty Insurance, to provide access to top-quality malpractice insurance from a trusted company -- with direct-to-customer speed and efficiency," said Josh Plotkin, corporate affairs and partnership manager of NPACE.

"We look forward to collaborating with NPACE to make it simple for their nurse practitioner members to secure insurance coverage, and to sharing industry insights and information to support its mission of promoting excellence in patient care," said Adam Yasan, managing director of Berxi.

The partnership is effective immediately and runs through 2020. Nurse practitioners and other advanced practice providers can find more information about the partnership at www.npace.org/berxi-insurance/ and www.berxi.com/m/npace/.

Nurse Practitioner Associates for Continuing Education (NPACE) is a national nonprofit organization that promotes excellence in patient care by providing high-quality, evidence-based

educational programs to nurse practitioners and other advanced practice clinicians in a rapidly changing healthcare environment. NPACE is accredited as a provider of nursing continuing professional development by the American Nurses Credentialing Center's Commission on Accreditation. NPACE is a 501(c)(3) nonprofit.

Berxi™ (formerly Cinch) provides medical malpractice coverage for nurse practitioners and other advanced practice medical professionals and students, as well as professional liability insurance for a range of professionals. Part of Berkshire Hathaway Specialty Insurance Company (BHSIC), Berxi delivers top-rated coverage at direct-to-consumer prices. Berxi also offers convenient payment plans, with no deductibles or additional fees.
